**Foreword:** The International Conference in Recent Innovations (ICRI) 2018 was a conference held by collaboration of Asia Pacific Studies and Sustainable Development (APSSD) and Indonesian Lecturer Association (ADI) which is independent organization, hosted by Esa Unggul University. Asia Pacific Studies and Sustainable Development (APSSD) is a research organization, particularly focusing on education, economics and information technology and communications. The objectives of International Conference Recent Innovation (ICRI) 2018 are to establish a discourse on innovation and sustainable development that engage policy-makers, government agencies, academic and research institutions and people concerned about the structural and institutional changes needed to make the transition and innovation development. ICRI 2018 promotes integration of functional and behavioral areas of economic, business, education, ICT with concepts and methodologies of decision sciences and information systems, with [\(More\)](#)
